Heather C.M. Allaway, PhD

2139 Huey P Long Field House, Baton Rouge, LA, 70803 | +1.225.578.1637 | hallaway@lsu.edu | ORCID: 0000-0003-2023-9337

PRESENT POSITIONS

Adjunct Assistant Professor: 05/2022-present
Pennington Biomedical Research Center

Assistant Professor: 08/2021-present
School of Kinesiology, Louisiana State University
Track: Exercise Science and Human Performance

Adjunct Professor: 03/2019-present
International Space University
Teaching Focus: Human Performance in Space

PAST POSITIONS

Research Scientist: 01/2021–08/2021
Department of Medical Physiology, Texas A&M Health Science Center, *Mentor:* Pooneh Bagher, Ph.D.
Research Focus: Female cardiovascular health & animal models of spaceflight

Postdoctoral Research Associate: 03/2017–12/2020
Department of Health and Kinesiology, Texas A&M University, *Mentor:* Susan Bloomfield, Ph.D.
Research Focus: Female astronaut skeletal health & animal models of spaceflight

Doctoral Research Assistant: 08/2012–05/2017
Department of Kinesiology, Pennsylvania State University, *Advisor:* Mary Jane De Souza, Ph.D.
Research Focus: Women's health across the lifespan – menarche to menopause

Master's Research Assistant: 08/2007–05/2012
Department of Obstetrics & Gynecology, University of Saskatchewan, *Advisor:* Roger Pierson, Ph.D.
Research Focus: Ovarian function and imaging

EDUCATION

Ph.D.	<i>Integrative & Biomedical Physiology</i> , Pennsylvania State University, USA	05/2017
M.S.	<i>Obstetrics & Gynecology</i> , University of Saskatchewan, Canada	10/2012
Certificate	<i>Space Studies Program</i> , International Space University, France	08/2010
B.S.	<i>Honors Biology, minor Physics</i> , Mount Allison University, Canada	05/2007

RESEARCH AGENDA

My research agenda takes a whole organism perspective to better understand women's health across the life span, using human clinical and animal basic science models. Specifically, my research aims to understand the impact of modifiable factors on women's reproductive health and the downstream implications for musculoskeletal health and exercise performance. Modifiable factors include hormonal contraception use, energy status, exercise, microgravity/unloading, sociocultural factors, and psychology. This information helps to inform the development and implementation of evidence-based strategies to promote healthy participation in physical activity. A parallel area of my research involves understanding factors that lead young girls and women to leave sports, to develop strategies to prevent this and promote physical activity participation throughout life. I also work on developing strategies to increase the awareness and education of athletes and physically active people regarding the Athlete Triad/Relative Energy Deficiency in Sport.

HONORS & AWARDS

2023	Early Career Award, College of Human Sciences & Education, LSU
2023	Travel Grant, College of Human Sciences & Education, LSU
2021-	Protégé, ACSM Mentoring Women to Fellowship Program
2020	Young Investigator Award, ECTS Digital Masterclass
2019	Alice L Jee Young Investigator Award, 48 th International Musculoskeletal Biology Workshop
2019	Postdoctoral Travel Award, Division of Research, Texas A&M University
2018	iGIANT Space Health Prize, Space Health Challenge, HRP IWS
2015	Janet W. McArthur Award for Excellence in Women's Health Research, CHHD, PSU
2012	Herbert J. Bailey Endowed Graduate Fellowship, The Graduate School, PSU
2012	Dorothy L. Anderson Endowed Graduate Fellowship for Women, The Graduate School, PSU

OTHER EXPERIENCE & PROFESSIONAL MEMBERSHIPS

2023-	Member, American Society for Gravitational and Space Research
2023	Co-Chair, Vertebrates I Oral Presentation Session, ASGSR Annual Conference
2023	Co-Chair, TRISH Postdoctoral Fellows Research Update Oral Presentation Session, HRP IWS
2021-2022	NASA STAR Academy, Virtual Masterclass for Space Biosciences Training, Cohort 2
2020-	Member, International Society for Gravitational Physiology
2018-2019	Treasurer, Texas A&M University Postdoctoral Association Executive Committee
2017-2018	Recording Secretary, Texas A&M University Postdoctoral Association Executive Committee
2017-	Member, Academy of Bioastronautics
2013-	Member, Athlete Triad Coalition
2012-	Member, American College of Sports Medicine

ONGOING RESEARCH SUPPORT

- LaSPACE Undergraduate Research Assistantship Program (\$4500), Allaway 08/24-05/25
Principal Investigator
Insights into the impacts of continuous, low-dose-rate neutron radiation exposure on fetal skeletal development.
- NASA HERO Omnibus (80NSSC24K0406, \$150,000), Allaway 03/24-02/25 Principal Investigator
A time course of bone microarchitectural and material property changes in male and female mice during simulated unloading and spaceflight.
- LSU CHSE Faculty Research Grant (\$8000), Allaway 10/23-06/24 Principal Investigator
Will use of long-acting, reversible contraceptives reduce long bone growth in female rats?
- NASA ROSES Grant (#80NSSC23K0784, \$100,000), Allaway 06/23-05/25 Principal Investigator
Insights into the impacts of continuous, low-dose-rate neutron radiation exposure on maternal and fetal skeletal physiology.
- Wu Tsai Human Performance Alliance Grant (\$200,000), Spielmann 09/22-08/24 Co-Investigator
Physical and mental resilience in female athletes: a pilot study.
- Nutrition Obesity Research Center Pilot Program (\$97,000), Viverito 06/20-05/24 Collaborator
Substrate oxidation in girls (STRONG).

COMPLETED RESEARCH SUPPORT

- Provost's Fund: Research & Creative Activity Support (\$7500), Hulteen 01/24-06/24 Collaborator
Feasibility of the women exercising, active, and learning together for health (WEALTH) trial.
- College of Human Science and Education Faculty Research Grant (\$8000), Allaway 10/23-6/24
Principal Investigator
Will use of long acting, reversible contraceptives reduce long bone growth in female rats?
- TRISH Go-for-Launch Grant (\$150,000), Allaway 01/21-12/21 Principal Investigator
Mechanistic insights into the combined chronic impact of spaceflight and aging on cardiovascular physiology

**Award closed early to accept tenure-track position at Louisiana State University*

08/15/2021

- TRISH Postdoctoral Fellowship (\$197,000), Allaway/Bloomfield 01/18-12/20 Principal Investigator
Will use of long-acting, reversible contraceptives mitigate bone loss in female rats during simulated exploration class missions?
**Initial Fellowship (2 years) and Competitive Extension (1 year)*
- PSU Childhood Obesity Prevention Training Seed Grant (\$6,000), Allaway/Lieberman 07/14-03/18
Co-Principal Investigator
The Effect of a mixed composition meal on the thermic effect of food, fuel utilization, subjective appetite, and appetite hormone responses in young exercising women across the BMI spectrum.
- Strategic Training Initiative in Research in the Reproductive Health Science (STIRRHS) Matching Funding Bursary (CAD \$18,000), Allaway/Pierson 08/08-07/10 Research Assistant
Aromatase inhibitor effects on ovarian function during the follicular and early luteal phase in women

INVITED SEMINARS, TALKS & PANELS

National/International

- *Insights into NASA Grant Writing from an Early Career Award Winner and STAR Alumnus.* NASA STAR Session 4. 02/20/2024.
- *The Physiological Adaptations to Space* Panel Discussion. 3rd Australian Space Biology x Health Summit, Virtual Conference. 11/17/2021.
- *Female Astronaut Health: Using animal models to advance our understanding.* 3rd Australian Space Biology x Health Summit, Virtual conference. 11/16-19/2021.
- *Perspective Reversible Figures.* Joint CSA/ESA/JAXA/NASA Increment 31-32 Science Symposium. Johnson Space Center. 12/07/2011. *Presented on behalf of the team via teleconference.

Co-Chair, Space Studies Program, International Space University, hosted by the Instituto Superior Tecnico Taguspark, Oeiras, Portugal.

Human Performance in Space Department, Planning (12/2021–06/2022) & Implementation (07–08/2022).

Development and coordination of a program of 16 workshops of 3-4 hours' duration to utilize the expertise of visiting lecturers and the facility of the host site to teach life sciences with a focus on physiology and medicine to participants with non-life science backgrounds.

Co-Instructor, Department of Health and Kinesiology, Texas A&M University.

KINE 682 Hot Topics in Bone Biology Graduate Seminar, 01-05/2019.

Topics covered: Basic Bone Biology and Biomechanics, Bone Aspects of the Athlete Triad, Gut Microbiome Interactions with Bone, and Osteocytes.

Chair, Space Studies Program, International Space University, hosted by the Delft University of Technology, Delft, the Netherlands.

Human Performance in Space Department, Planning (10/2017–06/2018) & Implementation (07–08/2018).

Development and coordination of a program of 15 workshops of 3-4 hours' duration to utilize the expertise of visiting lecturers and the facility of the host sites (TU Delft, Leiden University, and ESA ESTEC) to teach life sciences with a focus on physiology and medicine to participants with non-life science backgrounds.

Co-Instructor, Department of Kinesiology, Pennsylvania State University.

KINES 197a Biophysical Basis of Kinesiology, Sensory Systems and Motor Control Section, 07–08/2015

KINES 454 Women's Health and Exercise Across the Lifespan, Physiology of Reproduction and Hormonal Contraception across the Premenopausal Timespan Section, 01–06/2015.

Instructor of Record/Teaching Mentor: Mary Jane De Souza, Ph.D.

Visiting Lecturer

AERO 489/689, Special Topics: Human Performance in Aerospace Environments, Department of Aerospace Engineering, Texas A&M University.

Bone Biology and Biomechanics: Adaptations to Spaceflight, 10/21/2021.

Bone Biology and Biomechanics: Adaptations to Spaceflight, 09/17/2020.

Bone Biology and Biomechanics: Adaptations to Spaceflight, 03/07/2019.

KINES 101 Biophysical Basis of Kinesiology, Department of Kinesiology, Pennsylvania State University.

The Female Athlete Triad and Basic Concepts of Energy Metabolism, 01/19/2017.

The Female Athlete Triad and Basic Concepts of Energy Metabolism, 11/10/2016.

Human Performance in Space Department, Space Studies Program, International Space University, hosted at Cork Institute of Technology, Cork, Ireland. 07/2017.

Cardiovascular Physiology and Adaptations to Space Flight & Exercise and Bone Physiology and Adaptations to Space Flight.

Human Performance in Space Department, Space Studies Program, International Space University, hosted at Technion, Haifa, Israel. 08/2016.

Cardiovascular Physiology and Adaptations to Space Flight & Exercise and Bone Physiology and Adaptations to Space Flight.

KINES 455 Physiological Basis of Exercise is Medicine. Pennsylvania State University. 04/13/2016.

Introduction to Bone Health.
