LSU Electronic Thesis and Dissertation Collection(2002-2005)

1992 - 2001

This information supplements two publications by the School: (1) Research Report No. 15, Theses and Dissertations Accepted by the Louisiana State University School of Forestry, Wildlife, and Fisheries 1927-1991, 58 p., by Paul Y. Burns, S.C. Hu, and Norwin E. Linnartz, January 1992; and (2) Research Report No. 16, Theses and Dissertations accepted by the Louisiana State University School of Forestry, Wildlife, and Fisheries 1992-1996, 17 p., by Paul Y. Burns and Norwin E. Linnartz, July 1997.

Theses and dissertations are listed in chronological order. Each is listed under the year of acceptance in alphabetical order by author's surname. A four-digit numbering system was used; the first two digits indicate the year the degree was awarded, and the last two digits show the number of the item within that year. The major professor who supervised each student is listed after the title and number of pages, followed by the code for the degree awarded.

In 1994, the School awarded its first non-thesis degree, which was the M.S. degree, major in wildlife. In order to have a complete listing of all degrees granted, the recipients of these degrees are listed alphabetically along with the thesis students, in their year class, with the notation "Non-thesis." The degree conferred and the major field are listed in code as described below, along with the number of degrees awarded during the ten-year period 1992-2001.

Code	Degree and Major	Number awarded
PhD	Ph.D. in forestry	19
PhD	Ph.D. in wildlife and fisheries science	27
MSfi	Master of Science in fisheries	56
MSfo	Master of Science in forestry	31
MSwi	Master of Science in wildlife	<u>80</u>
Total		213

Following is the list of theses and dissertations, a student index and a major professor index.
