

**THESES AND DISSERTATIONS ACCEPTED BY THE LOUISIANA STATE UNIVERSITY
SCHOOL OF RENEWABLE NATURAL RESOURCES
2006 – May 2013**

Revised 31 May 2013

by Mary S. Bowen, Research Associate/Coordinator
School of Renewable Natural Resources

This information supplements the Revised Report of 15 May 2006, by Dr. Paul Y. Burns that supplemented Research Report No. 15, Theses and Dissertations Accepted by the Louisiana State University School of Forestry, Wildlife, and Fisheries 1927-1991, by Paul Y. Burns et al.; and an update for 1992-2001, written by Paul Y. Burns for publication on the School of RNR website

Theses and dissertations are listed in *this* report under the year the thesis was accepted by the **Electronic Thesis and Dissertation** repository of the LSU Graduate School. This service began in 2002, but is not complete for that year. Therefore, this is a revised list that includes a link to the version of each student's thesis or dissertation, where available. The list appears in order by year (see above) and in alphabetical order by the author's surname.

A four-digit numbering system was used; the first two digits indicate the year the degree was awarded, and the last two digits show the number of that item within the year. The major professor who supervised each student is listed after the title and number of pages, followed by the code for the degree awarded.

From 1994 through 2002 the School awarded the M.S. degree in wildlife as both thesis and non-thesis. The other M.S. degrees have a thesis requirement. In order to have a complete listing of all degrees granted, the recipients of non-thesis degrees are listed alphabetically along with the thesis students, in their year class, with the notation "Non-thesis."

The degree conferred and the major field are listed in code as described below.

Degree and Major

PhDfo Ph.D. in forestry
PhDwfs Ph.D. in wildlife and fisheries science
MSfi Master of Science in fisheries
MSfo Master of Science in forestry
MSwi Master of Science in wildlife

Indices for 2006 – May 2013, alphabetized by the student's and major professor's last name, are at the end of the listing.

Theses and dissertations may be read by accessing the LSU Graduate School web site. (<https://digitalcommons.lsu.edu/gradschool/>) for the **Electronic Thesis and Dissertation Collection**. You can browse by name or by department. The link to each document is associated with each author and will open in a separate browser page if the document is not under embargo
